Chasing Innovative Ideas to solve bigger challenges..

CORONA VIRUS????

WHAT IS IT?

How did USA became the biggest victim?

How did it occur?

Which leads to downfall of,

- Social
- Economic
- Various sections

On 20 January, the first known case of COVID-19 was confirmed in the Pacific Northwest state of Washington in a man who had returned from Wuhan on 15 January.

Afterwards, situation creates exponential growth of disease spreading

Yes ! Challenge to whole world. But, let's focus on USA , the country which has been effected the most , unfortunately.

As a team we decide to build a predictive algorithm for Covid19 cases,

- So many datasets
- Analyzing Issues
- Working Virtually
